## Description

This 2020 Toyota RAV4 VVT-h Dynamic is a well-maintained example of a popular hybrid SUV. With a full service history and a very low mileage of 21,809 miles, this vehicle has been carefully looked after. It is powered by a 2.5-litre petrol hybrid engine that meets Euro 6 emission standards, making it a practical choice for modern driving requirements. The vehicle offers a blend of performance and convenience that sets it apart, including an acceleration time of 0-62mph in 8.4 seconds. Practicality is a key strength, highlighted by its large boot space which provides ample room for luggage or shopping. Comfort and ease of use are prioritised through features such as heated driver and front passenger seats, a keyless entry system with push button start, and Bluetooth connectivity.

Every effort has been made to ensure the accuracy of the information above, however, errors may occur.
