Description

A Honda VFR800F registered in 2015 (15), with 9,400 miles and presented in very clean condition throughout. Powered by Honda's 800cc V4 engine, the VFR800F offers smooth performance with plenty of usable power. It is a great choice for riders looking for a bike that can handle everyday riding, weekend trips and longer journeys. The VFR800F has a comfortable riding position, good wind protection and stable handling, making it particularly well suited to touring. The V4 engine also gives the bike plenty of character while remaining easy to use on the road. With just 9,400 miles, this example has covered relatively low mileage for its age and has clearly been well looked after. It presents very well throughout and starts, runs and rides exactly as

it should. A clean and well-presented VFR800F offering a good mix of performance, comfort and practicality. Contact us today for more information, finance options or to arrange a viewing.
