Description

This 2026 Toyota Yaris Cross VVT-h Design is a modern hybrid vehicle that has covered only 5 miles from new. As a single owner car, it offers a nearly new experience for its next driver. The vehicle is powered by a 1.5 litre petrol hybrid engine, which meets Euro 6 emission standards, ensuring it remains compliant with current environmental regulations. The Yaris Cross Design is equipped with a range of features designed to assist with daily driving, including a Safety Pack that incorporates blind spot assistance along with front and rear parking sensors. Manoeuvring is further simplified by a reversing camera that displays directly through the multimedia system. For convenience, the car includes smart entry with push button start, while visibility is enhanced by LED projector
